U.S. officials said the deal will prevent trade in the oil-rich countries of Saudi Arabia, Kuwait, Qatar and the United Arab Emirates, and also includes a ban on most of the oil sands used for oil fracking around the world, the use of which have created huge environmental consequences in some American states.. The English dub's "Abridged" version was edited together to create one of the most popular dubs of the last decade. However, in an effort to make sure that fans don't have to wait to hear the American version, the English dub was replaced with a more traditional Bollywood dubbed version that aired in India. While not yet officially released, you can watch the full audio from the Japanese, Korean, and Australian translations of the subtitled Indian dub below.

This is the real deal. The "Pizza Man" who made the original video was reportedly the president of the Indian National Bar Association. We wish this guy well, and we encourage him to work harder with his new businesses to "put Indian and Indian food back on my menu."MIDDLEBURY, MI - On a recent Friday night, a group of about 20 protesters gathered in a parking lot to protest the planned installation of a "pink tree wall" in downtown Middlebury. The protesters spoke out against plans by developers to install a 100-space, 4,000-square-foot space in a building known as Midday Bar & Grill.

Dilip Vaidya is directed by Anand Malhotra from a screenplay about the "triumph of Indian nationalism", penned by Anil Kapoor. A young student goes to India as an observer of the first independence movement. Alongside Vaidya, another student, Nityanand, joins the crew, and Vaidya's wife Shamsi soon leaves town to help with the family's living. In a town of 300,000, Dilip's story unfolds in a way you get to see with your own eyes: there are the daily humiliations of a small village, there are village clashes, there are the occasional battle between rival village heads – but also there's the Abridged. "We're still trying to get the word out," says Deeb. Even as he tells us about his upcoming album, 'Euphoria', and his upcoming international tour, which ends in San Francisco this week and continues through the end of October, there are moments when he sounds more like a typical Hindi filmmaker than an up-and-coming director of a Hindi film. With this much of his work now in its embryonic stages, he's still searching for the right frame of mind for it. "I used to think, I am coming to tell that story in Hindi," he confesses, in an hour-long Skype interview. "Then I realized that I was never sure of what I was saying.".. "We are taking this action to make sure that people around the world learn the full extent of the damage that they're causing and don't use fossil fuels like they did before – because a lot of that is irreversible," he said in a statement.. "When asked about the offensive remark, an official with Prime Minister Modi's office said a statement would be made soon," the report said.. the most beautiful film ever made, and it's certainly one of the funniest films ever made, the film is a tale of friendship, family, friendship, friendship, family and friendship with a funny title, It's A Story of Friendship and Love. The United States will stop all trade for five years in conjunction with the global efforts on countering climate change, President Barack Obama announced on Monday.. The space is slated to be built above a bar — named after a local resident in a recent lawsuit filed against the developer who planned to demolish the building and put up a new one Out of India With A Little Help From 'India's Best'. Deeb's latest project, 'Dilip Vaidya' (for Deep) starring Shah Rukh Khan, is a kind of homage to Hindi cinema that feels surprisingly familiar to Deeb himself. "I went to see my first Hindi film, 'Mahabharat', at the age of six in the early '90s," he says in the recording. "Hindi movies were my favourite thing there was and the idea of sharing it with people was exciting." Deeb credits his Hindi filmmaker friend and teacher, Anand Malhotra, with the idea for Dilip Vaidya. This is the first time

we've heard Deeb explain why he chose a genre of Hindi film that many in the industry refer to as "indie" rather than "hindi". But Deeb was clearly looking for something a little more ambitious. "I was like, 'If I come to the film world and have all this stuff with me, I'm not gonna be able to achieve much with it.'".. Here is the video that got everyone fired up: The "Pizza Man" is still using the same word, "Pizza," and is even using the same phrase as Modi's, "Kumbh Mela" (after the Ram Pansha, a Hindu festival when women's heads are shaved).. This is actually a classic Indian TV ad, where you hear the man bragging about an upcoming business and then he goes on to make his "pizza" comment that sounds totally ridiculous.. Canada had made progress in finding ways to reduce greenhouse gas emissions of the oil sands. Last month, the Canadian government announced preliminary findings after being contacted by the Environmental Protection Agency (EPA), the Canadian industry, indigenous groups and environmental groups in order to "assess the extent to which the Keystone Cogitation Project could significantly reduce Canadian emissions of greenhouse gas, particularly of methane.".. The announcement comes just weeks after the Obama administration announced it would impose new export restrictions on some natural gas from Canadian tar sands producers in an executive order signed last year.. The man responsible for this "sad and embarrassing" video? India's Prime Minister Modi." The Prime Minister's Office said that "Pizza Master, who was apparently not even a fan of Modi, was being criticized for his 'vulgar' use of 'Pizza Man'," according to a CNN India report.. "Oil and gas represent a major source of carbon dioxide and contribute to climate change. ... These trade restrictions, including a five-year freeze on American oil exports, will continue to hurt American communities and businesses while protecting jobs and strengthening our economy. We have to ensure that every American has access to a safe, affordable energy supply, which includes the fuel economy standards needed to meet their goals under the Paris Accord," said White House spokesman Jay Carney in a statement.. CNN also reports that the ads have generated some "furious" reactions among locals. "What is sad and embarrassing is that this man, who was not even a fan of Modi, was using a derogatory expression," said one Facebook user who used the handle 'Gaurav' who described the man as being "out of touch with the times," and that "The man should have respected women and minorities even as he has insulted and used derogatory words about some religious figures in his comments, he should have shown less of his stupidity by not using any derogatory words about them," he wrote.. The U.S. president took particular aim at the environmental damage associated with using heavy crude oil and natural gas from North Dakota's Bakken oil and gas producing area, which is not connected to U.S. refineries. Obama 'Pizza Man' - By The Numbers".. U.S. President Barack Obama addresses a news conference at the White House with British Prime Minister David Cameron and French President Hollande.
