Chien: It would be a good idea to be able to get a small form of physical assistance. We are not prepared. You can use the idea of this very broad law and expand it. If I am for you to be allowed to make these decisions. It is very different. I just don't know if it is. On the basis of these two statements. You can then see this I have a really clear idea. All of these things. To open up a very little bit. This was a very good question. Leaving and I'll make sure you get the help you need. I'll give you the opportunity to compare it with what happened. This law is very different to the

area of decision to change the system of medical assistance. Then it is okay. We should be to help you. I think that the consequence of this debate. This debate on the law is that it shows us the limits of this law. You can find an alternative solution to the old system. I think this is an important part of the project. In this case. That there are many different kinds of assistance. We've really gotten a good answer. And it doesn't seem likely that we can really create a legislative framework. So that it's not possible to deal with this question. We'll come back in a little bit. I will take a look at it. And how the result and then maybe we have some answers. And if you can look into the case. The first thing is that this type of financing. At this point in the project. That is a very simple and easy to understand. We can talk about a much more complicated issue. Now you have the sense. If you want something that is more in the service of the government. How will the government do that.
